

**Share the Care**  
***Adult congenital hearts deserve it!***

**Please refer your adult congenital heart patients to a CACH centre near you.**

*Only about one quarter of adults with congenital heart disease (CHD) are now being seen by an adult CHD specialist. CCHA wants to ensure that every CHD patient gets access to the care they need to live the longest and healthiest life possible.*

**The Canadian Adult Congenital Heart Network (CACH)**, founded in 1991, is comprised of CHD professionals. They are a community of individuals committed to caring for adults with CHD, and their families. CACH has 15 specialist adult CHD centres across Canada.

**The Canadian Congenital Heart Alliance (CCHA)**, founded in 2004, is a volunteer-run patient support and advocacy charitable organization. Their mission is to ensure that Canadians with CHD get the expert care and support they need to live long, healthy lives.

For more information about CACH, please visit [cachnet.org](http://cachnet.org).

To learn more about the Canadian Congenital Heart Alliance, please visit [cchaforlife.org](http://cchaforlife.org). If you would like brochures and other education information for your office, please email [communications@cchaforlife.org](mailto:communications@cchaforlife.org).
