Virtual Congenital Heart Choir

Are you a child living with congenital heart disease in Canada? Do you like to sing? Are you looking for something fun to do inside over the long Canadian Winter?

Why not join our CHD children's choir! Brought to you by musicians from the Virtual Heart Connection (VHC) in association with the Canadian Congenital Heart Alliance (CCHA), you will learn a medley of songs and sing together with other CHD kids.

Sessions will start with vocal warm-up exercises followed by learning the song. Participants will have an optional chat time with each other at the end. Pediatric Cardiologists, Dr Jayani, a singer from Halifax and Dr Edythe, a pianist from Edmonton will meet with you over zoom for 8 Sunday sessions from January to March 2024 to provide instruction on singing, recording and filming your part for a youtube video to celebrate the CCHA's 20th anniversary.
